Tort Reform- Medical Malpractice & Products Liability. Creates the Private Attorney Retention Sunshine Act which requires state agencies obtaining legal services to conduct an open bidding process for services, seek general assembly approval for contracts over \$1,000,000, and prohibits legal fees exceeding \$1,000 per hour. Creates the Asbestos Claims Priority Act which prohibits the filing of specific asbestosis related claims including nonmalignant conditions, asbestos related cancer, mesothelioma, and wrongful death unless specific and enumerated prima facie evidence is shown by medical report and filed within 120 days of filing the complaint. Restricts premises owner liability for asbestos exposure on their property, and limits jurisdiction of Tennessee courts over asbestos claims. Creates the Innocent Successor Asbestos-Related Liability Fairness Act. Sets a maximum amount of liability placed on corporations that have incurred or assumed asbestos related liability as a result of a merger or consolidation prior to January 1, 1972. Redefines and expands the definition and requirements of a products liability claim including what constitutes defective and unreasonably dangerous, the burden of proof, requisite knowledge of both the plaintiff and the defendant, actions or knowledge by the plaintiff that absolve a defendant of liability, seller versus manufacturer liability, and seller indemnity. Creates a rebuttable presumption that when a seller or manufacturer is in compliance with applicable federal law a product is not considered to be defective. Replaces the term "Medical malpractice" with "Health care liability action" which clarifies the cause of action as limited to any civil action against a health care provider alleging injury related to the provision or failure to provide health care. Requires, rather than permits, a plaintiff in a health care liability action to include a demand for a specific sum in their complaint and limits suits against attorneys for failure to collect the demanded amount. Requires that a plaintiff file a HIPPA- complaint medical authorization form with their petition in a health care liability action. Allows an award of \$75,000 or more in a health care liability action be made in periodic payments per court order and by party request. Restricts the amount of fees an attorney can collect in a health care liability action when employment contract was based on a contingent fee from a maximum of thirty three and one third percent of the damage award to various percentages based on the recovery amount, starting with forty percent of the first \$50,000. Requires, subject to judicial waiver, an expert witness to have been practicing in the same specialty as the defendant to testify to duty and breach in a health care liability action. Prohibits specific expressive conduct and offers to correct from being used as evidence of an admission of fault against health care providers in suits and other disciplinary proceedings concerning unexpected results from medical treatment. Limits the amount of bond or other security a health care provider

must post when an appeal is pending to no more than \$1,000,000. Clarifies that groups qualifying as medical or peer review committees that provide review for the professional conduct and competency of peers are not limited to those listed in the code. Places the maximum amount of noneconomic damages recoverable under a civil action at \$250,000 per person, \$500,000 per occurrence, or a specified number based on the amount of full-time employees the defendant employs and restricts the award of punitive damages for claims involving drugs and devices. Redefines economic damages to include provisions regarding expenses forgiven, discounted, or covered by private insurance. Requires the plaintiff to show an actual out-of-pocket loss to recover any damages and prove causation in a suit for unfair or deceptive acts or practices. (pp 40.) (S: Johnson J.; H: Sargent)

Regulation & installation of traffic light cameras. Creates a new requirement that local governing bodies request a traffic engineering study on areas chosen for enforcement camera installation to ensure there is a need for the device. Requires the study be conducted by professionals specialized in traffic engineering and under standards implemented by the Institute of Transportation Engineers. Sets a guideline for the minimum information the study must provide based on the type of camera being installed. Requires that all cameras installed after January 1, 2012 follow enumerated operational protocols concerning the appearance and functioning of the cameras and that the local governing body evaluate the cameras on a monthly basis to ensure compliance. Requires that local governing bodies prior to installing an enforcement camera notify the public 30 days prior to installation through a public awareness program and only issue warning citations for the first 30 days of the cameras operation. Places various restrictions and requirements on contracts between local governing bodies and private vendors including limiting contracts to four years, prohibiting payment based on the amount of citations issued, and requiring copies of contracts with private vendors be given to the comptroller of the treasury. Requires a certified officer to review video evidence and determine if a violation occurred rather than an employee of a law enforcement office. Invalidates any notice given to a violator by a private vendor. Deletes the provision allowing for additional penalties for failure to pay the violation fine after a second notice has been sent based solely on the evidence provided by an enforcement camera. Changes the entity entitled to determine whether cameras are meeting various requirements from state agencies and political subdivisions to courts of competent jurisdiction.
